THE BIOLOGICAL BULLETIN

PUBLISHED BY
THE MARINE BIOLOGICAL LABORATORY

INDEX TO VOLUMES I-LX

Including Volumes I and II of the Zoological Bulletin

OCTOBER, 1931

Printed and Issued by
LANCASTER PRESS, Inc.
PRINCE & LEMON STS.
LANCASTER, PA.

27m

TABLE OF CONTENTS

	Page
Author Index	1
Subject Index	61

38880

AUTHOR INDEX

Note: ZB before the volume number indicates that the paper appeared in the Zoological Bulletin.

A

- Abbott, J. F.** The effect of distilled water upon the fiddler crab... 1913 24 169
- Abbott, J. F. and E. L. Richards.** The lethal effect of pure distilled water on the vinegar eel (*Anguillula aceti*)..... 1911 21 122
- Adams, C. C.** Southeastern United States as a center of geographical distribution of flora and fauna..... 1902 3 115
- The postglacial dispersal of the North American Biota..... 1905 9 53
- Adolph, E. F.** Some physiological distinctions between freshwater and marine organisms..... 1925 48 327
- Allabach, L. F.** Some points regarding the behavior of *Metridium*. 1905 10 35
- Allee, W. C.** Note on animal distribution following a hard winter. 1919 36 96
- Studies in marine ecology. I. The distribution of common littoral invertebrates of the Woods Hole region..... 1923 44 167
- III. Some physical factors related to the distribution of littoral invertebrates..... 1923 44 205
- The ecological importance of the rheotactic reaction of stream isopods..... 1914 27 52
- The Invertebrate Course in the Marine Biological Laboratory 1922 42 99
- The salt content of natural waters in relation to rheotaxis in *Asellus*..... 1917 32 93
- Allee, W. C., and J. F. Schuett.** Studies in animal aggregations: the relation between mass of animals and resistance to colloidal silver..... 1927 53 301
- Allen, B. M.** Effects of the extirpation of the anterior lobe of the hypophysis of *Rana pipiens*..... 1917 32 117
- The embryonic development of the ovary and testis of the Mammalia (preliminary account)..... 1903 5 55
- The relation of the pituitary and thyroid glands of *Bufo* and *Rana* to iodine and metamorphosis..... 1919 36 405
- The topography of organs in typical segments of *Hirudo*..... 1902 3 161
- Allen, C. M.** A contribution to the development of *Parypha crocea* 1900 1 291
- Allen, E.** The existence of a short reproductive cycle in *Anodonta imbecilis*..... 1924 46 88
- Allen, G. D.** Reversibility of the reactions of *Planaria dorotocephala* to a current of water..... 1915 29 111
- Allen, H. J.** Glycogen in the chick embryo..... 1919 36 63
- Allen, W. E.** A study of the relation of tissue differentiation to rate of growth during regeneration..... 1911 21 187
- Allen, W. R.** See Eigenmann and Allen..... 1921 41 301
- Studies of the biology of freshwater mussels..... 1921 40 210
- The food and feeding habits of freshwater mussels..... 1914 27 127
- Allis, E. P., Jr.** The homologies of the occipital and first spinal nerves of *Amia* and teleosts..... 1898 ZB 2 83

The morphology of the petrosal bone and of the sphenoidal region of the skull of <i>Amia calva</i>	1897	ZB 1	1
Allyn, H. M. The initiation of development in <i>Chaetopterus</i>	1912	24	21
Alpatov, W. W. Phenotypical variation in body and cell size of <i>Drosophila melanogaster</i>	1930	58	85
Variation of hooks on the hind wing of the honey bee (<i>Apis mellifera</i> L.)	1928	55	209
Amberson, W. R. The influence of oxygen tension upon the respiration of unicellular organisms	1928	55	79
Anderson, L. A. The effect of alkalis on the oxygen consumption and susceptibility of <i>Planaria dorotocephala</i>	1927	53	327
Andrews, E. A. Alternate phases in <i>Folliculina</i>	1920	39	67
An aberrant limb in a cray-fish	1904	6	75
Distribution of <i>Folliculina</i> in 1914	1915	29	373
Filose activity in metazoan eggs	1898	ZB 2	1
Ontogeny of the <i>Annulus ventralis</i>	1906	10	122
Sperm-transfer organs in <i>Cambaroides</i>	1909	17	257
The anatomy of the stylets of <i>Cambarus</i> and of <i>Astacus</i>	1910	18	79
The annulus of a Mexican crayfish	1908	14	121
The bottle-animalcule, <i>Folliculina</i> ; ecological notes	1914	26	262
Andrews, J. M. Morphology and mitosis in <i>Trichomonas termopsisidis</i> , an intestinal flagellate of the termite, <i>Termopsis</i>	1925	49	69
Ashmead, W. H. A new species of diapiroids from Texas	1902	3	15
Ayers, H. On the membrana basilaris, the membrana tectoria, and the nerve endings in the human ear	1898	ZB 1	275
On the pithecoïd type of ear in man	1899	ZB 2	247

B

Babkin, B. P. Studies on the pancreatic secretion in skates	1929	57	272
Babkin, B. P., and D. J. Bowie. The digestive system and its function in <i>Fundulus heteroclitus</i>	1928	54	254
Bachhuber, L. J. The behavior of the accessory chromosomes and of the chromatoid body in the spermatogenesis of the rabbit	1916	30	294
Bachmann, F. M. The migration of the germ cells in <i>Amiurus nebulosus</i>	1914	26	351
Baker, R. H. See Brinley and Baker	1927	53	201
Baker, W. B. Studies in the life history of <i>Euglena</i>	1926	51	321
Baldwin, F. M. Susceptible and resistant phases of the dividing sea-urchin egg when subjected to various concentrations of lipid-soluble substances, especially the higher alcohols	1920	38	123
The relation of body to environmental temperatures in turtles, <i>Chrysemys marginata</i> Belli (Grey) and <i>Chelydra serpentina</i> (Linn.)	1925	48	432
Baldwin, W. M. A study of the combined action of X-rays and of vital stains upon <i>Paramoecia</i>	1920	39	59
The effect of ultra-violet light rays upon the development of the frog's egg. II. The artificial production of folded (U-shaped) embryos	1919	37	294
Ball, E. F. See Breed and Ball	1908	15	289

Ball, G. H. Studies on <i>Paramecium</i> , III. The effects of vital dyes on <i>Paramecium caudatum</i>	1927	52	68
Banta, A. M. Sex recognition and the mating behavior of the wood frog, <i>Rana sylvatica</i>	1914	26	171
Banta, A. M., and R. A. Gortner. A milky white amphibian egg jelly.....	1914	27	259
Barbour, T. The smallest <i>Polyodon</i>	1911	21	207
Bardeen, C. R. Embryonic and regenerative development in planarians.....	1902	3	262
Essential factors in the regeneration of <i>Planaria maculata</i> (abstract).....	1901	2	351
Barker, J. F. See Kepner and Barker.....	1924	47	239
Barrows, W. M. The reaction of an orb-weaving spider, <i>Epeira sclopetaria</i> Clerck, to rhythmic vibrations of its web.....	1915	29	316
Bartelmez, G. W. The relation of the embryo to the principal axis of symmetry in the bird's egg.....	1918	35	319
Baskervill, M. L. The permeability of frog skin to urea: I. The influence of NaCl and CaCl ₂	1927	53	239
II. The effect of dextrose and sucrose.....	1927	53	247
Bauer, G. Remarks on the question of intercalation of vertebrae. 1897 ZB 1.....	1897	ZB 1	41
Baumgartner, W. J. Some new evidences for the individuality of the chromosomes.....	1904	8	1
Beams, H. W. Maturation phenomena in artificial parthenogenesis of <i>Asterias forbesii</i>	1927	53	155
Beattie, J. See Lloyd and Beattie.....	1928	55	404
Beck, L. V. See Schmitt and Beck.....	1930	59	269
Becker, E. R. <i>Endamoeba citelli</i> sp. nov. from the striped ground squirrel <i>Citellus tridecemlineatus</i> , and the life-history of its parasite, <i>Sphaerita endamoebae</i> sp. nov.....	1926	50	444
Streaming and polarity in <i>Mastigina hylae</i> (Frenzel).....	1928	54	109
The flagellate fauna of the caecum of the striped ground squirrel, <i>Citellus tridecemlineatus</i> , with special reference to <i>Chilomastix magna</i> sp. nov.....	1926	51	287
The rôle of the nucleus in the cell functions of <i>Amoebae</i>	1926	50	382
Vital staining and reduction of vital stains by protozoa.....	1926	50	235
Beckwith, C. J. Preliminary report on the early history of the egg and embryo of certain hydroids.....	1909	16	183
The early development of the lateral line system of <i>Amia calva</i>	1907	14	23
Behre, E. H. An experimental study of acclimation to temperature in <i>Planaria dorotocephala</i>	1918	35	277
Belkin, M. See Dawson and Belkin.....	1929	56	80
Bellamy, A. W. Differential susceptibility as a basis for modification and control of early development in the frog.....	1919	37	312
Note concerning the origin of polarity in the frog's egg. A correction.....	1921	41	351
See Hyman and Bellamy.....	1922	43	313
Belling, J. Configurations of bivalents of <i>Hyacinthus</i> with regard to segmental interchange.....	1927	52	480
Nodes and chiasmata in the bivalents of <i>Lilium</i> with regard to segmental interchange.....	1928	54	465
Single and double rings at the reduction division in <i>Uvularia</i>	1926	50	355
The iron-acetocarmine method of fixing and staining chromosomes.....	1926	50	160

Bensley, R. R. An examination of the methods for the microscopical detection of phosphorus compounds other than phosphates in the tissues of animals and plants.....	1906	10	49
On the nature of the canalicular apparatus of animal cells	1910	19	179
See Harvey and Bensley.....	1912	23	225
The oesophageal glands of Urodela.....	1900	2	87
Berry, E. H. The "accessory chromosome" in <i>Epeira</i>	1906	11	193
Berry, S. S. Light production in cephalopods.....	1920	38	141
Nematolampas, a remarkable new cephalopod from the South Pacific.....	1913	25	208
Note on the occurrence and habits of a luminous squid (<i>Abrolia veranyi</i>) at Medeira.....	1926	51	257
Bigelow, M. A. Notes on the first cleavage of <i>Lepas</i>	1899	ZB 2	173
Bigelow, R. P. A new narcomedusa from the North Atlantic....	1909	16	80
Variation in the number of fin-rays in three species of <i>Fundulus</i> of the Woods Hole region.....	1926	51	299
Bigelow, R. P., and H. S. Conant. Notes on variation in the shells of <i>Purpura lapillus</i> (abstract).....	1901	2	361
Bills, C. E. Inhibition of locomotion in <i>Paramecium</i> and observations on certain structures and internal activities.....	1922	42	7
Some effects of the lower alcohols on <i>Paramecium</i>	1924	47	253
Bissonnette, T. H. Notes on a 32 millimeter freemartin.....	1928	54	238
Blacher, L. J. The dependence of secondary sex-characters upon testicular hormones in <i>Lebistes reticulatus</i>	1926	50	374
Blackman, M. W. The spermatogenesis of the myriapods, II. On the chromatin in the spermatocytes of <i>Scolopendra heros</i>	1903	5	187
VI. An analysis of the chromosome group of <i>Scolopendra heros</i>	1910	19	138
Blakeslee, A. F. Sexual reactions between hermaphroditic and dioecious mucors.....	1915	29	87
Sexual reproduction of the Mucorineae (abstract).....	1905	8	255
Blanchard, K. C. See Loeb and Blanchard.....	1924	47	284
Blount, M. The early development of the pigeon's egg, with especial reference to the supernumerary sperm nuclei, the periblast and the germ wall.....	1907	13	231
Blum, H. F. Studies of photodynamic action. I. Hemolysis by previously irradiated fluorescein dyes.....	1930	58	224
II. The relationship between hemolysis by irradiated and non-irradiated eosine.....	1930	59	81
Blumenthal, R. The effect of cyanides on the swelling of protoplasm.....	1927	52	313
Bodine, J. H. Action of salts on <i>Fundulus</i> egg. I.....	1928	54	396
A note on the toxicity of acids for mosquito larvae.....	1923	45	149
Hydrogen ion concentration in the blood of certain insects (Orthoptera).....	1926	51	363
Hydrogen ion concentration of protozoan cultures.....	1921	41	73
Insect metabolism.....	1928	55	395
Physiology of the Orthoptera. Hydrogen ion concentration of the blood and alimentary tract of certain Orthoptera (grasshoppers).....	1925	48	79

Bodine, J. H., and P. R. Orr. Physiological studies on respiratory metabolism.....	1925	48	1
Bonnevie, K. "Heterotypical" mitosis in <i>Nereis limbata</i> (Ehlers).....	1907	13	57
Boring, A. M. Closure of longitudinally split tubularian stems....	1904	7	154
The chromosomes of the Cercopidae.....	1913	24	133
The interstitial cells and the supposed internal secretion of the chicken testis.....	1912	23	141
The odd chromosome in <i>Cerastipsocus venosus</i>	1913	24	125
Boring, A. M., and R. H. Fogler. Further notes on the chromosomes of the Cercopidae.....	1915	29	312
Boschma, H. On the color changes in the skin of the lizard <i>Ptychozoon homalocephalum</i>	1925	48	446
On the feeding reactions and digestion in the coral polyp <i>Astrangia danae</i> , with notes on its symbiosis with <i>Zoöxanthellae</i>	1925	49	407
Bowen, R. H. A preliminary report on the structural elements of the cytoplasm in plant cells.....	1927	53	179
Notes on the form and function of the Golgi apparatus in striated muscle.....	1926	50	108
Notes on the occurrence of abnormal mitoses in spermatogenesis.....	1922	43	184
Studies on insect spermatogenesis. I. The history of the cytoplasmic components of the sperm in Hemiptera.....	1920	39	316
Studies on insect spermatogenesis. III. On the structure of the nebenkern in the insect spermatid and the origin of nebenkern patterns.....	1922	42	53
Bowie, D. J. See Babkin and Bowie.....	1928	54	254
Bowling, R. C. See Calkins and Bowling.....	1926	51	385
See Calkins and Bowling.....	1928	55	101
Boyd, M. A comparison of the oxygen consumption of unfertilized and fertilized eggs of <i>Fundulus heteroclitus</i>	1928	55	92
Boyden, A. A. The precipitin reaction in the study of animal relationships.....	1926	50	73
Bradley, H. C. Manganese of the lamellibranchs.....	1910	19	161
Breed, R. S., and E. F. Ball. The interlocking mechanisms which are found in connection with the Elytra of Coleoptera	1908	15	289
Breitenbecher, J. K. An apterous mutation in <i>Bruchus</i>	1925	48	166
Somatic mutations and elytral mosaics of <i>Bruchus</i>	1922	43	10
The inheritance of a macula mutation concerned with elytral spotting and latent traits in the male of <i>Bruchus</i>	1925	49	265
Bridges, C. B. White-ocelli. An example of a "slight" mutant character with normal viability.....	1920	38	231
Bridges, C. B., and A. H. Sturtevant. A new gene in the second chromosome of <i>Drosophila</i> and some considerations on differential viability.....	1914	26	205
Brinley, F. J. Studies on the physiological effects of hydrogen cyanide.....	1927	53	365
The effect of ammonium salts on protoplasm of <i>Amoeba</i>	1929	56	371
Brinley, F. J., and R. H. Baker. Some factors affecting the toxicity of hydrocyanic acid for insects.....	1927	53	201

Bristol, C. L. The metamerism of <i>Nephelis</i> . A contribution to the morphology of the nervous system, together with a description of <i>Nephelis lateralis</i>	1897	ZB 1	35
Brown, V. E. The Golgi apparatus of <i>Amoeba proteus</i> Pallas.	1930	59	240
Browne, E. N. See Morgan, Payne and Browne	1910	18	76
The relation between chromosome number and species in <i>Notonecta</i>	1910	20	19
Brues, C. T. Notes on the life history of the Stylopidae	1905	8	290
Peculiar trachial dilatations in <i>Bittacomorpha clavipes</i> Fabr.	1900	1	155
See Melander and Brues	1909	1	123
See Melander and Brues	1902	3	33
See Melander and Brues	1903	5	1
Systematic affinities of the dipterous family Phoridae	1907	12	349
The classification of insects on the characters of the larva and pupa	1919	37	1
The internal factors of regeneration in <i>Alpheus</i> (abstract)	1904	6	319
The structure and significance of vestigial wings among insects	1903	4	179
Brues, C. T., and R. W. Glaser. A symbiotic fungus occurring in the fat-body of <i>Pulvinaria innumerabilis</i> Rath.	1921	40	299
Buchanan, J. W. Modification of the rate of oxygen consumption by changes in oxygen concentration in solutions of different osmotic pressure	1931	60	309
Budington, R. A. A suggestion as to the effect of thyroid gland substances on protoplasm in general.	1925	48	83
Influence of certain ductless gland substances on the growth of plant tissues	1919	37	188
Nervous regulation of the heart of <i>Venus mercenaria</i> (abstract)	1904	6	311
The manner of copulation in a turbellarian worm, <i>Planaria maculata</i>	1924	47	298
Budington, R. A., and H. F. Harvey. Division rate in ciliate protozoa as influenced by thyroid constituents	1915	28	304
Bumpus, H. C. The variations and mutations of the introduced <i>Littorina</i>	1898	ZB 1	247
Burch, P. R. Endodermal flagella of <i>Hydra oligactis</i> Pallas.	1928	54	520
Burnett, T. C. Can sea water maintain the beat of the heart of fresh water animals?	1907	13	203
Burroughs, R. D. See Kater and Burroughs	1926	50	38
Butcher, E. O. The formation, regeneration, and transplantation of eyes in <i>Pecten</i>	1930	59	154
The origin of the germ cells in the lake lamprey (<i>Petromyzon marinus unicolor</i>)	1929	56	87
Byrnes, E. F. Experiments in breeding as a means of determining some relationships among Cyclops	1919	37	40
Heterogeny and variation in some of the Copepoda of Long Island.	1903	5	152
On the skeleton of regenerated anterior limbs in the frog.	1904	7	166
Two transitional stages in the development of <i>Cyclops signatus</i> , var. <i>coronatus</i>	1906	10	193

SUBJECT INDEX

Note: ZB before the volume number indicates that the paper appeared in the Zoological Bulletin.

A

Abnormalities, Cambarus	1909	16	297
cestode proglottid.	1907	12	155
female characters, Cambarus	1929	56	1
limb in a crayfish	1904	6	75
lobster cheliped.	1910	18	252
Moniezia expansa	1900, 1, 215, 1900, 1, 261, 1902, 3, 95, 1902	3	143
muscular, in the cat	1903	5	336
ovarian structure, in a pigeon	1899 ZB 2	211	
secondary sexual characters, in crayfishes	1928	55	197
Abralia veranyi , habits.	1926	51	257
Absorption , of hydranth in hydroid polyps	1903, 4, 96, 1903	5	297
spectra, of bloods and solutions containing hemocyanin	1930	58	150
Acanthomyops (Dendrolasius) fuliginosus Latr., colony founding.	1922	42	173
Acclimation to temperature, Planaria dorotocephala	1918	35	277
Acholla multispinosa, chromosomes.	1910	18	174
Acidity , reactions and resistance of fishes	1915	29	221
Acids , acetic and hydrochloric, reactions of crayfishes to gradients			
of dissolved carbon dioxide and	1914	27	177
action on oxygen consumption.	1925	49	288
effects of injection on cytoplasmic pH of Amoeba dubia	1928	55	377
fatty, solutions, influence on conditions of activation, unfertilized starfish eggs.	1915	28	260
resistance of Rhabditis	1924	46	95
toxicity for mosquito larvae	1923	45	149
Acipenser , olfactory lobes, fore-brain and habenular tracts	1898 ZB 1	221	
Actinia bermudensis Verr., formation of germ layers.	1910	19	339
Actinians , "memory"	1921	41	117
pedal laceration.	1911	20	81
Actinobolus vorax n. sp., structure and behavior	1929	56	390
Actinophrys sol, food reactions.	1928	54	485
Actinosphaerium eichhornii Ehr., grafting and reincorporation	1928	54	279
Actinozoa , larva, peculiar species.	1904	7	75
morphology	1897, ZB 1, 115, 1899, ZB 2, 251, 1901	2	155
Activation , egg of Echinarachnius parma	1919	36	39
rapidity of, in fertilization of Nereis	1920	38	196
starfish eggs, as influenced by cyanide and oxygen-lack	1931	60	288
unfertilized starfish eggs, by electric current	1925	49	100
Adaptation , and immunity	1905	9	141
color changes in Fundulus	1925	48	56
in Coscinasterias tenuispina	1920	39	116
"memory" in actinians	1921	41	117
Paramaecia to environment	1911	22	60

photoc sensitivity of <i>Ogilbia</i>	1921	41	98
phototropism of <i>Lima</i>	1921	41	102
pigmentation of <i>Stichopus moebii</i>	1921	41	112
re-formation of mantle-glands of <i>Chromodoris</i>	1920	39	108
relation of light to pigmentation of ascidians	1921	41	106
significance of sperm-head in <i>Cerebratulus</i>	1907	13	300
volume of water involved in cloacal pumping of holothurians ..	1920	39	130
Adhesive organs of <i>Amia</i>	1908	14	134
Adoption of <i>Lasius</i>, <i>Formica</i> and <i>Polyergus</i> queens by colonies of alien species	1911	20	281
Adrenin , effect on rate of locomotion of <i>Planaria</i> and toad larvae ..	1919	37	157
Aeshna umbrosa nymphs, factors influencing rate of metabolism ..	1928	54	212
Agalena naevia , spermatogenesis	1909	17	120
Age , of mother, and effect in secondary non-disjunction	1928	55	121
Ageing , effects on germ cells	1918, 34, 372, 1918	35	1
sperm, agglutinability of, factors changing	1929	57	389
Agglutination , ageing germ cells	1929	57	350
Arbacia sperm	1915	28	18
variation of normal germ cells	1929	57	333
Aglaophenia , differentiation in hydroid colonies	1910	18	138
Air , conditions and reactions, of moist forest mammals	1917	32	183
confined, and production of hibernation in thirteen-lined ground squirrel	1930	59	114
reactions of certain animals to gradients of evaporating power ..	1913	25	79
Albumen and yolk, changes in pH during embryonic development ..	1929	57	300
Alcohol , effect on life cycle of <i>Infusoria</i>	1908	15	85
effect on <i>Paramecium</i>	1924	47	253
effect on susceptible and resistant phases of dividing sea urchin egg	1920	38	123
method of dilution to desired percentage	1898 ZB 1	245	
Alcoholization , effects on germ cells, of <i>Fundulus heteroclitus</i>	1916	31	379
Alectrion , locomotion in two species	1919	37	126
Algae , axial susceptibility gradients	1916	31	419
marine, susceptibility gradients in hairs	1917	32	75
of Gulf of Naples (abstract)	1905	8	256
pollution of public water supplies (abstract)	1905	8	256
pond, method of determination	1928	55	443
Alkalinity , reactions and resistance of fishes	1915	29	221
Alkalies , effect on oxygen consumption and susceptibility, <i>Planaria</i> <i>dorotocephala</i>	1927	53	327
Allelomorphs , multiple, in <i>Drosophila</i>	1914	26	331
Allolobophora egg, method for sectioning	1905	9	281
regeneration of pharynx	1900	2	105
Allolobophora foetida , cocoons	1902	3	206
egg	1898 ZB 1	129	
Alpheus , internal factors of regeneration (abstract)	1904	6	319
Alpheus heterochelis , reversal of asymmetry in regeneration of chela	1903	4	197
Alternation of generations in <i>Lecane inermis</i> Bryce	1931	60	345
Amblyopsis spelaeus , light reactions	1907	13	317

Amblystoma maculatum , growth of larvae under natural conditions .	1930	58	182
origin and development of gastric glands	1903	4	66
sex differentiation in gonads developed from transplants of intermediate mesoderm	1928	55	317
Amblystoma punctatum , breeding habits	1908	14	284
new bladder distome	1903	4	252
structure of spermatophores	1910	18	204
Amia , adhesive organs	1908	14	134
homologies of the occipital and first spinal nerves	1898	ZB 2	83
Amia calva , early development of lateral line system	1907	14	23
early stages in development of hypophysis	1900	1	57
morphology of petrosal bone and sphenoidal region of skull . .	1897	ZB 1	1
starvation	1916	31	453
Amido-acids , effects on development of Arbacia and Chaetopterus eggs	1912	22	273
Amino-acids , influence on development of echinoderms	1909	16	44
Amitosis , and mitosis, relation between 1907, 12, 89, 1907, 12, 175, 1907, 13, 138, 1907	1907	13	165
in cells growing <i>in vitro</i>	1916	30	445
in entoderm of Fasciolaria tulipa var. distans	1908	14	219
in malpighian tubules of the walking-stick	1908	14	89
in Moniezia	1910	18	109
pathological, in food-ova of Fasciolaria	1907	13	1
Amiurus nebulosus , migration of germ cells	1914	26	351
Ammonium salts , effect on protoplasm of Amoeba	1929	56	371
permeability of Arbacia egg to	1931	60	171
Amoeba , behavior toward indigestible and soluble substances . . .	1916	31	303
effect of ammonium salts on protoplasm	1929	56	64
formation of food-cups induced by chemicals	1925	48	236
influence of nucleus on behavior	1916	30	253
light reactions	1917	32	45
modification of response	1924	46	55
nucleus, rôle of, in cell functions	1926	50	382
relation between responses to mechanical shock and sudden illumination	1927	53	405
Amoeba dubia , buffer action of cytoplasm	1928	55	383
effect of injection of acids and salts on cytoplasmic pH	1928	55	377
permeability differences between nuclear and cytoplasmic sur- faces	1929	56	64
Amoeba proteus , culture in a known salt solution	1929	56	68
digestion of oils	1929	56	80
fertilization	1907	13	219
food reactions	1913	24	411
life history	1927	52	411
Amoeba proteus Leidy , life history	1920	38	340
Amoeba proteus Pallas , Golgi apparatus	1930	59	240
Amoeboid movement of dissociated sponge cells	1923	45	153
Amphibia , cell size and metabolic activity	1925	48	347
clasping organs	1908	14	249
development of eye, by W. H. Lewis, commented upon by A. Schafer	1905	9	245

egg jelly	1914	27	259
embryo, development of gills	1921	41	156
food and determination of sex	1907	13	40
formation of the notochord	1903	4	287
heterotypic maturation mitosis, significance of	1903	4	259
metamorphosis	1931	60	11
origin of heart endothelium	1903	5	28
ovary, follicle sacs	1902	3	245
sex determination	1909	16	27

<i>Pectinatella magnifica</i> , locomotion in young colonies	1906	11 245
Pedal ganglion of <i>Mytilus</i> , conduction of nervous impulse	1929	56 32
Pedal laceration in actinians	1911	20 81
<i>Pedicellina americana</i> , nucleoli in somatic and germ cells	1905	8 347
<i>Pediculus vestimenti</i>	1920	39 262
sex of offspring, determination of	1919	37 385
spermatogenesis	1919	37 371
Pelagic dissoconchs of the common mussel	1928	55 187
<i>Pelagospaera</i> , a larval gephyrean	1910	18 281
Pellicle in <i>Blepharisma undulans</i> , loss and regeneration	1929	56 327
<i>Pelmatohydra</i> , observations under determined pH concentration ..	1928	55 419
<i>Pelmatohydra oligactis</i> , endodermal glands	1929	56 341
Pelvic attachment in <i>Necturus maculatus</i>	1907	12 375
<i>Penella filosa</i> , immature specimens	1905	8 296
Penikese Island, fauna of, 1923	1926	50 17
<i>Pennaria</i> , cytology of	1909	17 209
<i>Pentatoma</i> , chromatoid body simulating an accessory chromosome	1913	24 392
<i>Peranema trichophorum</i> (Ehrbg.) Stein, morphology and binary		
fission	1928	54 36
<i>Percheron horses</i> , color inheritance	1905	9 265
<i>Perichaeta bermudensis</i> (Beddard), reactions to light and mechan-		
ical stimuli	1905	10 17
<i>Perionyx excavatus</i> E. Perr, regeneration	1927	53 351
<i>Peripatus</i> , complete discharge of mitochondria from spermatozoön.	1912	22 309
<i>Peripatus eisenii</i> Wheeler, description of male	1900	1 251
Peripheral nervous system, histogenesis, in <i>Salmo salar</i>	1901	2 352
<i>Periplaneta orientalis</i> L., apparent reversal of light-responses	1912	23 371
behavior of, on an open maze	1913	25 348
Perivisceral fluid of echinoderms, cellular elements	1924	46 228
Permeability and fatigue in muscle	1931	60 382
Arbacia egg to ammonium salts	1931	60 171
Arbacia egg to non-electrolytes	1931	60 152
differences between nuclear and cytoplasmic surfaces in		
<i>Amoeba dubia</i>	1929	56 64

egg membrane by sperm, governing factors.....	1905	9	378
frog skin to urea.....	1927, 53, 239, 1927	53	247
living cells to water, effect of urethanes.....	1931	60	72
relative, of surface and interior portions of cytoplasm of animal and plant cells.....	1913	25	1
surface layer of living cells, general biological significance of changes in.....	1909	17	188
<i>Peromyscus</i> , comparative study of daily water-intake among cer- tain taxonomic and geographic groups in genus.....	1930	59	326
sex ratio.....	1928	55	151
<i>Peromyscus eremicus</i> , studies of coat-color and foot pigmentation in subspecific hybrids.....	1925	48	37
Personal equation in breeding experiments involving certain characters of maize.....	1911	21	339
Petrosal bone of skull of <i>Amia calva</i> , morphology of.....	1897	ZB 1	1
<i>Petromyzon marinus unicolor</i> , origin of germ cells.....	1929	56	87
<i>Phacus pleuronectes</i> , relation between intensity of light and rate of locomotion.....	1922	43	203
<i>Phagocata gracilis</i> , regeneration.....	1904	7	160
Phagocytosis and clotting in perivisceral fluid of <i>Arbacia</i>	1921	41	144
in a mammalian ovary (abstract).....	1901	2	338
Phalarope, luteal cells in gonad.....	1924	46	101
Pharynx, regeneration, in <i>Allolobophora</i> from endoderm.....	1900	2	105
Phaseolus, chromosomal vesicles and structure of resting nucleus..	1926	51	209
<i>Pheretima benguetensis</i> Beddard, distribution of setae.....	1930	58	274
<i>Philodina roseola</i> , desiccation in.....	1917	32	343
<i>Philosamia cynthia</i> , gametogenesis.....	1912	23	40
spermatogenesis.....	1907	13	94
variation and elimination in (abstract).....	1901	2	362
Phoridae, systematic affinities.....	1907	12	349
<i>Phoronis pacifica</i> , sp. nov.....	1901	2	283
Phosphorus compounds other than phosphates in tissues of animals and plants, methods for microchemical detection.....	1906	10	49
Photic sensitivity of <i>Ogilbia</i>	1921	41	98
Photic stimuli, reaction-time of <i>Gonionemus murbachii</i> . 1904, 6, 84, 1904	1904, 6, 84, 1904	6	324
Photodynamic action studies.....	1930, 58, 224, 1930	59	81
Photogenic organ of the knight-fish.....	1926	50	365
Phototactic reactions in <i>Ileptagenia interpunctata</i> (Say).....	1911	21	265
Phototaxis in <i>Volvox</i>	1903	4	319
Phototropism, Lima.....	1921	41	102
relative, of vestigial and wild type <i>Drosophila</i>	1925	49	354
reversal, in a parasitic water mite.....	1930	59	165
<i>Phrynosoma cornutum</i> , segregation of germ-cells.....	1908	15	119
<i>Phrynosoma modestum</i> Gir., reactions.....	1917	32	98
<i>Phyllodistomum americanum</i> , a new bladder distome from <i>Am- blystoma punctatum</i>	1903	4	252
Phylogenetic origin of termite castes.....	1919	36	115
Phylogeny, antennae of Diptera.....	1907	13	324
of Nemocera.....	1912	23	250
of termites.....	1904	8	29

Phylloxerans of the hickories, male and female eggs.....	1906	10	201
Physa heterostrophæ, resistance to sea water.....	1929	57	292
Physiological action , of elements, in relation to solution tension (abstract).....	1904	6	312
Physiological classification in the problem of ecological succession.....	1912	23	331
Physiological gradients , nature and origin.....	1920	39	147
Physiological method , of purifying water reservoirs (abstract)....	1905	8	252
Physiology , invertebrate heart (abstract).....	1905	8	231
regeneration of parts in <i>Planaria maculata</i>	1900	1	193
Pigeon , abnormal, ovarian structure.....	1899	ZB 2	211
domestic, metallic colors of feathers from neck.....	1902	3	85
early development of egg.....	1907	13	231
gastrulation and origin of primitive streak in egg.....	1907	13	251
hybrid, case of abnormal plumage.....	1902	3	289
Pigeons , hybrids from wild species (abstract).....	1904	6	315
rock, origin and relationships as seen in color-patterns (ab- stract).....	1904	6	307
the voices of (abstract).....	1904	6	323
two crosses between different races.....	1911	21	215
Pigment , <i>Arbacia</i> egg-secretion.....	1921	41	256
distribution of, in <i>Oligochetae</i>	1930	58	265
<i>Velella spirans</i> and <i>Fiona marina</i>	1931	60	120
Pigmentation , ascidians, as affected by light.....	1921	41	106
<i>Stichopus moebii</i>	1921	41	112
Pigs , foetal, sex intergrades.....	1927	52	121
origin and development of gastric glands.....	1903	4	66
spermatogenesis.....	1913	25	8
Pinnidae , otocyst.....	1912	24	14
Pithecoïd type of ear in man.....	1899	ZB 2	247
Planaria , effect of adrenin on rate of locomotion.....	1919	37	157
embryonic and regenerative development.....	1902	3	262
experimental control of morphogenesis in regulation.....	1911	20	309
oxygen consumption in relation to size differences.....	1919	37	388
relation between regulation and fission.....	1906	11	113
transplantation studies.....	1929	57	188
Planaria dorotocephala , acclimation to temperature.....	1918	35	277
central nervous system in teratophthalmic and teratomorphic forms.....	1911	22	39
effect of alkalies on oxygen consumption and susceptibility... ..	1927	53	327
regulatory change of shape.....	1909	16	277
respiration in relation to regeneration.....	1920	38	103
reversibility of reactions to current of water.....	1915	29	111
Planaria lata , physiology of reconstitution.....	1923	44	113
Planaria lugubris , internal influences determining relative size of double structures.....	1902	3	132
Planaria maculata , asexual reproduction (abstract).....	1901	2	357
chemotropic and feeding reactions.....	1917	33	67
manner of copulation.....	1924	47	298
physiology of regeneration.....	1900	1	193
regeneration.....	1901	2	351
Planaria simplissima , extrusion of winter egg capsule.....	1908	15	226
Planaria velata , asexual breeding and prevention of senescence....	1914	26	286

asexual cycle in relation to senescence and rejuvenescence....	1913	25	181
life history.....	1927	53	139
Plankton of Shawnee Cave.....	1909	17	386
Planocera inquilina, uterine spindle.....	1912	23	271
Planorbis, cell lineage.....	1897	ZB 1	95
effect of X-rays on rate of cell division in early cleavage....	1914	27	67
Plant breeding, history and general factors (abstract).....	1905	8	244
utilization of hybrids (abstract).....	1905	8	248
Plant cell, cytoplasmic structures (abstract).....	1905	8	249
unorganized contents (abstract).....	1905	8	243
Plant functions and structure, as influenced by solutions (abstract)	1905	8	250
Plants, origin of nature and color (abstract).....	1905	8	255
relationships of sexual organs (abstract).....	1905	8	242
Plasma membrane, living cells, significance of changes in permeability.....	1909	17	188
present conception of structure.....	1930	58	1
Plastron, chelonian, contribution to evolutionary history.....	1906	10	68
Plate " abnormalities " in Chelonia, significance of.....	1906	10	68
Plathemis lydia, distribution of tracheae in nymph.....	1905	9	341
Platyaspis, species found parasitic on Unionidae of Lake Chautauqua.	1898	ZB 2	55
Platyaspis anodontae Osborn, specific identity.....	1899	ZB 2	179
Platyaspis megalops, breeding habits of heteronereis form, at Woods Hole.....	1914	27	201
effects of low temperature on fertilization and development in the egg.....	1929	57	439
experimental analysis of fertilization.....	1915	28	93
Platyphylax designatus Walker, development of nuclei of spinning-gland cells.....	1908	15	54
oocytes.....	1911	21	222
repair and rebuilding of larval case.....	1905	9	232
spermatogenesis.....	1910	19	55
Pleopods, regeneration, in Cambarus.....	1909	16	297
Plethodon cinereus erythronotus Green, biology of.....	1911	20	332
muscle regeneration in limbs.....	1901	2	289
Pleurotricha, regeneration after merotomy.....	1914	27	169
Pleurotricha lanceolata, conjugation, division and encystment....	1928	54	417
occurrence of nuclear variations.....	1928	55	433
Plumage, abnormal, in hybrid pigeons.....	1902	3	289
melanins in domestic fowl, thyroid and gonad as factors in production.....	1927	53	221
nestling and juvenile, of Sterna hirundo (abstract).....	1904	6	318
relation to ovarian condition in barred Plymouth Rock pullet.	1919	36	167
Plutei, top-swimming, effect of hypertonic sea water on production of, in Arbacia egg.....	1922	43	384
Pluteus larvae, defective, from isolated blastomeres of Arbacia and Echinarachnius.....	1927	52	373
Pneumonoeces complexus, n. sp.....	1906	10	249
Podarke obscura, " artificial parthenogenesis " in egg.....	1902	3	235
cell lineage.....	1897	ZB 1	195
segmental organ.....	1907	13	280
Pogonomyrmex badius Latrl., mound of and relation to breeding habits.....	1909	17	161

Poikilotherms , influence of humidity on body temperature	1930	58	52
Poisons , actions in solutions as influenced by insoluble substances (abstract)	1905	8	250
Polar body , cleavage of, in <i>Loligo</i> and <i>Chaetopterus</i>	1930	58	256
Polarity , adventitious, in <i>Harenactis</i>	1910	20	1
annelid egg	1909	16	54
control of, in <i>Corymorpha</i>	1910	19	280
in <i>Mastigina hylae</i> (Frenzel)	1928	54	109
origin of, in frog's egg	1921	41	351
physiological, in holdfast system of <i>Corymorpha</i>	1928	54	15
Polar spindle , formation in egg of <i>Bufo lentiginosus</i>	1905	9	73
Pole disc of chrysomelid eggs	1910	18	180
Polinices , ciliary and muscular locomotion	1922	42	132
Polistes wasps, honey-gathering habits	1928	54	503
Pollen mixtures , selective fertilization	1920	38	251
Pollen-tube growth, rate of, and selective fertilization	1922	43	167
Pollution of public water supplies by algae (abstract)	1905	8	242
Polocyte formation and cleavage of polar body in <i>Loligo</i> and <i>Chaetopterus</i>	1930	58	256
Polychaerus caudatus Mark, regeneration	1929	57	225
Polyembryony , a supposed case, in <i>Graffilla gemellipara</i>	1912	22	173
Polyergus queens, adoption by colonies of alien species	1911	20	281
Polygordius appendiculatus , rearing of larvae	1903	4	125
Polyhedral bodies found in insects, nature of	1916	30	367
Polymorphism , <i>Dallasia frontata</i> Stokes	1928	55	101
Polymorphous spermatogonia of <i>Batrachoseps attenuatus</i>	1900	1	99
Polyodon , seventy-four mm. long	1911	20	201
smallest	1911	21	207
Polyps , hydroid, absorption of hydranths	1903	4	96
Polytomella citri , cause and nature of encystment	1926	50	38
new species	1925	49	213
Polyvitelliny in pond snails	1927	53	318
Pond snail , growth indicated by increase in shell size	1929	56	41
Ponera , habits	1900	2	34
Ponerinae , Texan	1900	2	1
Popillia japonica Newman, cold hardiness	1928	55	163
Population density , in relation to growth rate of <i>Euglena</i>	1929	57	81
Porocystis primiformis Cragin, fossil genus	1905	9	388
Portheus , genus of	1898	ZB 2	25
Postglacial dispersal of the North American biota	1905	9	53
Potassium cyanide , action on some coelenterates and annelids	1919	37	404
resistance of fishes	1916	31	441
toxic action in relation to state of nutrition and age of cell as shown by <i>Paramecium</i> and <i>Didinium</i>	1918	35	211
Potassium permanganate , axial gradients, demonstration of	1919	36	133
axial gradients in rate and amount of reduction, in various hydroids and medusae	1921	41	78
Potato beetle , hibernation	1925	49	381
Potential differences across chorion of <i>Fundulus</i> egg	1929	56	193
Poultry , genetic studies	1926	51	225
history of barred breeds	1912	22	297
Precipitation-structures simulating organic growth	1919	36	225

Precipitin reaction in study of animal relationships.....	1926	50	73
Pregnancy, extrauterine, experimentally produced in the guinea pig.....	1915	28	59
Prepotency, influence of selection and inbreeding, in Percheron horses.....	1905	9	265
Prepupal stage, duration of, in blow flies.....	1914	26	184
Pressure and traction, influence on protoplasm of blood cells of arthropods.....	1903	4	301
Primitive streak, origin in pigeon's egg.....	1907	13	251
position in relation to chick embryo.....	1903	4	211
Proales sordida, effects of modifications of culture medium on length of life and fecundity.....	1931	60	30
Proglottids, formation of, in <i>Crossobothrium laciniatum</i> (Linton) ..	1906	11	202
Pronephric duct, origin of, in Selachians.....	1897	ZB 1	123
Prorhynchus stagnalis, ciliated pits.....	1927	52	185
Prorodon griseus, life history.....	1926	51	303
Proteins, power of mesenchyme to digest.....	1922	43	97
Protein synthesis.....	1931	60	1
Protoplasm, action of ether.....	1925	49	461
Amoeba, as affected by ammonium salts.....	1929	56	371
as affected by thyroid gland substances.....	1925	48	83
blood cells of arthropods, as influenced by pressure and traction.....	1903	4	301
effect of cyanides on swelling.....	1927	52	313
effects of carbon dioxide on consistency.....	1922	42	14
living, structure of, in echinoderm eggs.....	1906	11	141
Paramecium, physical structure, relation to reactions of or- ganism to thermal, chemical and electrical stimuli.....	1904	7	3
physical effect of anaesthetics.....	1920	39	307
relation of environment to hydrogen ion concentration.....	1928	55	369
respiration and growth.....	1905	8	331
structure of.....	1918	34	307
Protoplasmic masses, interactions of, and heredity and environment in <i>Arcella</i> polypora.....	1924	46	106
Protozoa, ciliate, division rate as influenced by thyroid constituents.....	1915	28	304
cultures, hydrogen ion concentration.....	1921	41	73
interrelations with utricles of <i>Utricularia</i>	1926	50	239
intestinal, of termites, relationships with host.....	1924	46	178
life cycle.....	1906	11	229
life history.....	1902	3	192
pitcher plant.....	1926	50	271
resistance to action of <i>Crotalus atrox</i> and Cobra venoms.....	1931	60	64
toxicity of oxygen for.....	1925	48	455
vital staining and reduction of vital stains by.....	1926	50	235
Pselliodes cinctus, relation of true nucleolus to linin network in growth period.....	1916	31	121
Pseudococcus, origin of mycetocytes.....	1923	45	279
Pseudococcus nipae, chromosomes.....	1921	40	259
Pseudopodial fragments of <i>Didymia</i> , reactions of.....	1923	44	22
Psithyrus, notes on.....	1922	43	23
Psychical characteristics, as controlled by gonads.....	1928	55	339
Psychidae, sex-chromosomes.....	1919	36	399

Psychoda alternata , mutation in and method of transmission	1925	48	128
Ptychozoön homalocephalum , color changes in skin	1925	48	446
Pulsations , isolated holothurian cloaca, as affected by low oxygen tension	1930	58	74
isolated scale melanophores of <i>Fundulus heteroclitus</i> , as influenced by temperature changes	1931	60	269
Pulsatory rhythm of contractile vesicle in <i>Paramecium</i>	1928	55	404
Pulvinaria innumerabilis Rath, symbiotic fungus occurring in fat-body	1921	40	299
"Purple x" in <i>Arbacia</i> sperm, nature and source	1915	29	135
Purification of water reservoirs, physiological method (abstract) . .	1905	8	252
Purpura lapillus , variation in shells (abstract)	1901	2	361
Pycnogonids , habits	1901	2	195
Pycnopodia helienthoides (Stimpson), bilateral tendencies and habits	1918	35	232
relation of madreporite to physiological anterior end	1922	42	202
Pyrrochoris , female chromosome groups	1909	16	199

Q

Quadruplets , normal identical, in nine-banded armadillo	1909	17	181
Queen , army ant, finding of	1925	49	139

Twenty-eighth Annual Report of the Marine Biological Laboratory of Woods Hole , for the year 1925	1926	51	1
Twenty-fifth Annual Report of the Marine Biological Laboratory of Woods Hole , for the year 1922	1923	45	1
Twenty-first Annual Report of the Marine Biological Laboratory of Woods Hole , for the year 1918	1919	36	345

Twenty-fourth Annual Report of the Marine Biological Laboratory of Woods Hole, for the year 1921	1922	42	275
Twenty-ninth Annual Report of the Marine Biological Laboratory of Woods Hole, for the year 1926	1927	53	1
Twenty-second Annual Report of the Marine Biological Laboratory of Woods Hole, for the year 1919	1920	39	1
Twenty-seventh Annual Report of the Marine Biological Laboratory of Woods Hole, for the year 1924	1925	49	1
Twenty-sixth Annual Report of the Marine Biological Laboratory of Woods Hole, for the year 1923	1924	47	1
Twenty-third Annual Report of the Marine Biological Laboratory, for the year 1920	1921	41	1
Twinning, diagnosis of type	1929	56	164
monoötvular, diagnosis	1929	56	313
Twins, asymmetry reversal	1928	55	298
human	1928, 55, 283,	1928	55 298
identical, in cattle	1922	42	1
in cattle	1923	44	47
monozygotic and dizygotic, methods of diagnosis	1928	55	283
parabiotic, American wood-frog, sex reversal	1927	52	137
sole patterns	1926	50	293
Typhlomolge rathbuni, distribution and habits	1921	40	73
endocrine system	1923	45	303
Typhlops lumbricalis (Linnaeus), eyes of	1903	5	261
Typhlotriton spelaeus Stejn, hyo-branchial apparatus	1909	16	167

U

Uca pugnax, effect of neurophil drugs	1929	56	28
Ultrasonic waves, biological aspects	1930	59	306
Ultraviolet radiation and fertilization reaction in Arbacia punctulata	1927	53	416
effect on Arbacia germ cells	1926	50	455
effect on development of frog's egg	1919	37	294
effect on fertilizing power of Arbacia sperm	1926	50	473
effect on Uroleptus halseyi	1929	57	59
Umbra limi, spermatogenesis of, and behavior of spermatogonial chromosomes and first maturation division	1926	50	117
Unicellular organisms, influence of oxygen tension on respiration ..	1928	55	79
reactions to stimuli	1902	3	225
Unio, centrosome and sphere in egg	1898	ZB 1	265
Unionidae, early juvenile life	1911	20	77
marsupium	1910	19	31
Urea, permeability of frog skin to	1927, 53, 239,	1927	53 247
Urechis, production of normal embryos by artificial parthenogenesis	1931	60	187
effect on permeability of living cells to water	1931	60	72
Urodeles, multiple testis	1922	43	45
oesophageal glands	1900	2	87
testis, modification resulting from germ-cell degeneration	1925	48	145
ypsiloid apparatus	1906	10	255

Uroleptus halseyi , n. sp., effect of ultra-violet rays.....	1929	57	59
Uroleptus mobilis , effects of change in medium.....	1925	48	200
effects of changes in medium during different periods in life history.....	1926, 51, 179, 1928	55	386
Urosalpinx cinerea Say, rheotropism.....	1929	56	331
Uterine spindle of <i>Planocera inquilina</i>	1912	23	271
tubal and ovarian lysis and resorption of conceptuses.....	1919	36	283
Uterus , guinea-pig, correlation between cyclic changes in, and in ovaries.....	1914	27	1
Utricles of <i>Utricularia</i> , interrelations with protozoa.....	1926	50	239
Uvularia , single and double rings at reduction division.....	1926	50	355

V

Variability , drones and workers of honey-bee.....	1903	6	18
number of teeth on claws of spiders.....	1904	6	191
Variation , and elimination in <i>Philosamia cynthia</i> (abstract).....	1901	2	362
and selection in saturnid <i>Lepidoptera</i> (abstract).....	1904	6	310
bees.....	1904	6	217
bees, reply to Mr. Lutz.....	1904	7	70
body and cell size of <i>Drosophila melanogaster</i>	1930	58	85
Copepoda of Long Island.....	1903	5	152
hooks on hind wing of honey bee.....	1928	55	209
<i>Hydromedusae</i> (abstract).....	1901	2	359
notes.....	1903	4	227
number of fin-rays in three species of <i>Fundulus</i> of Woods Hole region.....	1926	51	299
position of stolon in <i>Autolytus</i>	1900	1	89
<i>Rhegmatoles</i>	1905	9	368
shells of <i>Purpura lapillus</i> (abstract).....	1901	2	361
temperature, effect on animal tissues.....	1903	5	42
temperature, effect on process of artificial parthenogenesis.....	1903	4	129
Variations and mutations of introduced <i>Littorina</i>	1898	ZB 1	247
analysis of, in fertilizing power of sperm suspensions of <i>Arbacia</i>	1915	28	229
Vascular area of chick blastoderm, development.....	1909	16	83
Vascular system of <i>Ceratodus</i> , development of.....	1904	6	320
Vasodilatation in <i>Fundulus</i> due to color stimulus.....	1926	50	207
Vegetation and control of land animal communities.....	1912	23	59
Velella spirans , pigment.....	1931	60	120
Venus mercenaria , nervous regulation of (abstract).....	1904	6	311
Vertebrae , intercalation.....	1897	ZB 1	41
Vertebral column of fishes, Dr. Gadow and Miss Abbott.....	1897	ZB 1	131
Vertebrates , embryos, metabolic gradients.....	1927	52	1
kidney, glomerular development in relation to habitat.....	1930	59	135
lower, some points in brain of.....	1901	2	356
Viability , differences in different types of regenerates from dis- sociated sponges.....	1921	40	127
differential, in <i>Drosophila</i>	1914	26	205
Vibrations of web, reaction of orb-weaving spider.....	1915	29	316
Visceral afferent pathway , <i>Scyllium canicula</i>	1930	59	217
Viscero-motor roots in <i>Amphioxus</i>	1905	9	112
Viscosity of <i>Arbacia</i> egg, as affected by fatty acid buffer systems..	1931	60	132
Vitality of gametes of <i>Cumingia tellinoides</i>	1928	54	351

Vital staining, and reduction of vital stains by protozoa.....	1926	50	235
of amoebocyte tissue of <i>Limulus</i>	1924	47	284
Voices, of pigeons (abstract).....	1904	6	323
Volvox, phototaxis.....	1903	4	319
Von Guaita's experiments in breeding mice, review.....	1900	2	121
Vorticella, regulation in.....	1914	27	343

W

Walking-stick, amitosis in malpighian tubules.....	1908	14	89
Wasps, <i>Polistes</i> , honey-gathering habits.....	1928	54	503
Water, distilled, biological examination.....	1904	6	198
distilled, effect on fiddler crab.....	1913	24	169
lethal effect on vinegar eel.....	1911	21	122
mite, parasitic, reversal of phototropism.....	1930	59	165
public supplies, pollution by algae (abstract).....	1905	8	242
reservoirs, purification of, physiological method (abstract)...	1905	8	252
volume involved in cloacal pumping of <i>Stichopus</i>	1920	39	130
Water-intake, comparative study among certain taxonomic and geographic groups in genus <i>Peromyscus</i>	1930	59	326
Water-pressure in regeneration of <i>Cerianthus</i>	1904, 6,	7	127
White feathers (abstract).....	1904	6	311
Wing development in aphids.....	1918	35	95
in <i>Microsiphum destructor</i> , effect of starvation.....	1917	33	296
Wings, vestigial, structure and significance among insects.....	1903	4	179
Wood, ingestion of, by <i>Trichonympha campanula</i>	1925	48	282
Wood-frog, sex reversal in parabiocotic twins.....	1927	52	137
Woods Hole, hydroids.....	1909	17	369
region, distribution of common littoral invertebrates.....	1923	44	167
sea water, composition.....	1927, 52, 161,	55	449

X

<i>Xiphactinus</i> , observations on genus.....	1898	ZB 2	25
<i>Xiphophorus helleri</i> , sex differentiation.....	1923	45	46
sex reversal.....	1926	51	98
X-rays, action on <i>Paramecia</i>	1920	39	59
effect on development of <i>Cumingia</i> eggs.....	1919	37	209
effect on fertilizin.....	1915	28	140
effect on rate of cell division in early cleavage of <i>Planorbis</i>	1914	27	67

Y

Yolk, changes in pH, during embryonic development under natural and artificial incubation.....	1929	57	300
formation, not connected with production of ova.....	1912	22	107
glands and cells in cestodes, degeneration.....	1919	36	309
Ypsiloid apparatus of urodeles.....	1906	10	255

Z

<i>Zamia floridana</i> , example of plant regeneration (abstract).....	1905	8	253
<i>Zoanthus sociatus</i> (Ellis), mesenterial filaments.....	1899	ZB 2	251
<i>Zoarces anguillaris</i> , digestive system.....	1929	56	8
Zoological bibliography and publication.....	1899	1	53
<i>Zoöthamnium alternans</i> , growth and differentiation of colonies....	1930	58	28

THE BIOLOGICAL BULLETIN

PUBLISHED BY
THE MARINE BIOLOGICAL LABORATORY

INDEX TO VOLUMES I-LX

Including Volumes I and II of the Zoological Bulletin

OCTOBER, 1931

Printed and Issued by
LANCASTER PRESS, Inc.
PRINCE & LEMON STS.
LANCASTER, PA.

MBL/WHOI LIBRARY

WH 17KI 9
